Edition S

Overview

Key Features of the HIFIMAN Edition S:

- **Open/Closed Back design** by virtue of removable logo caps on ear cups.
- **50mm dynamic driver** delivers best in class sonic performance
- **113 dB sensitivity** allows Edition S to be driven by virtually any portable audio device including smartphones, iPods etc.
- **Asymmetrical Ear Cups** - form follows function as these ear cups are designed to contour to the shape of the human ear.
- **Comfort** - light weight combined with padded headband provides hours of listening pleasure no matter where you are
- **High Performance cable** - Oxygen Free Copper (OFC)

Headphone experts have long recognized the sonic benefits of an open back design while closed back headphones are often a necessity when traveling or listening in close quarters such as an airplane. HIFIMAN gives you the best of both worlds with an on-ear headphone that can go from one mode to simply by adding (or removing) the logo cap on the ear cup. Engineers have cleverly optimized the performance in each mode to make this not only possible but also quick and easy.

Performance

At the heart of the Edition S is a 50mm dynamic driver designed for full range frequency response with exceptional detail and imaging. With a sensitivity rating of 113dB and impedance of 18 ohms, the HIFIMAN on-ear headphone can be driven by most portable audio devices such as smartphones and iPods. Completing the connection, Edition S is fitted with a high performance Oxygen Free Copper cable that is 1.3 m long and terminated in a 3.5mm mini jack.

Comfort and Convenience

Weighing in at only 8.74oz (248g), Edition S can be worn comfortably for hours on end thanks to its light weight and padded headband. The ear cups and pads generally follow the shape of the human ear offering further comfort to the listener. A 6.35mm ($\frac{1}{4}$ ") phone jack adapter is supplied allowing the owner to plug Edition S into portable or HiFi equipment.

The Edition S can be folded and stored in the travel case, which provides a safe environment when the headphones are carried out.

Adjusting the Headband

If the ear cups do not comfortably rest on your ears, you can move the sliding black block on each side of the headband to adjust the length to suit the shape of your head.

Earpad Replacement

Should you need to remove and reinstall the earpad (i.e. for replacement), fit the mounting flange onto the rim of the ear cup. Press around the mounting flange to make sure the earpad snaps into place.

Set-up and Operation (User-Replaceable Cable)

HIFIMAN uses high quality cables however should it ever become necessary to replace them they are user-replaceable. The cable has channel orientation indicators for left and right clearly marked by an L and R inside the headband.

The cable comes fitted with a 3.5mm stereo mini plug for use with most smartphones and portable players. Should you wish to use Edition S on a hi-fi system, you can use a headphone adapter to a $\frac{1}{4}$ " (6.35mm) stereo plug.

What's Included

Accessories included are:

- Airline Adapter
- Headphone Cable with In-line Control
(1.3 meter or 4.3 Feet; 3.5mm plug)
- Earpads: 1 pair (on the headphone)
- $\frac{1}{4}$ " (6.35 mm) headphone adapter
- Clip to affix the cable to a shirt or jacket
- Travel case

How to Use the In-line Control Cable

With the in-line control cable, you can adjust volume, pause/play your music, without reaching your device. This cable is equipped with a microphone.

Cleaning and Maintenance

Except for the cable and earpads, there are no other user-serviceable parts on Edition S. Tampering with or disassembling your headphone may void the warranty. When your earpads become sufficiently worn they can be replaced with a new pair available from your local dealer or HIFIMAN directly.

To clean the headphones, simply use a slightly damp soft cloth (i.e. microfiber) and avoid any harsh detergents. Keep in a dry location and do not allow any liquids to enter the headphones.

Warranty

Your HIFIMAN headphone is warranted for a period of twelve (12) months beginning with the original date of purchase. Your dated sales or delivery receipt, is your proof of purchase. You may be required to provide proof of purchase as a condition of receiving warranty service so please keep it handy.

If your product is under warranty and some malfunctions appear, please contact HIFIMAN customer service or your authorized dealer. If necessary, and at our discretion, we will provide a warranty repair or replacement of your product.

Caution: do not disassemble or modify the headphone in any way. Except for the cable and ear pads, there are no user-serviceable parts. Tampering with or modifying your HIFIMAN headphone will void its warranty.

This Limited Warranty does not apply to :

1. Defective or discolored parts if the damages are caused by fluids, dirt, missing keys, broken plastic parts or improper use.
2. Damage caused by misuse with another product.
3. Use of the product for other than its normal intended use, including, without limitation, failure to use the product in accordance with the supplied "Owner's Guide"
4. Damage caused by accident, abuse, neglect or misuse.
5. If you do not have a valid dated receipt showing proof of purchase.
6. Damage caused by services/repairs or other modifications to the system carried out by anyone other than HIFIMAN or an authorized HIFIMAN distributor or dealer.
7. Damage caused by self-repair or if the unit has been disassembled or modified in any way.

The warranty applies to the first purchaser and is not transferable. Should you need warranty service please contact us using the information shown in the "Contact" section.

If you have any concerns with your product: please contact us to explain the issue in detail. If a return/refund is required, a RA# will be issued. Return shipping to HIFIMAN or authorized service facility is done at the owner's expense.

For any further information or questions, please contact your authorized HIFIMAN dealer. Or email us directly at customerservice@HIFIMAN.com.
